BEHIND THE STAGE

Breaking barriers from a young age, Shivani was the first woman in her lineage to work after relocating with her family from India to Australia at just 11 years old. When she excitedly returned to work, just 6 weeks after having her children, her mum couldn't believe that she was breaking molds so fiercely, however that shows how passionate she is about helping others.

She takes her 10 year corporate career as a senior leader and couples it with 22 years of running her own multi-million dollar businesses and turns that into strategies and actions you can implement straight away.

She is practical, actionable and fun!
